### **MultiApplication BasicCard**

ZeitControl presents the MultiApplication BasicCard, a new member of the BasicCard family.

This new innovative BasicCard allows loading of multiple applications into a single BasicCard, even in cards already issued to end customers.

Still the MultiApplication BasicCard keeps the BasicCard advantages of easy use and fast development.

Access Control Rules (ACRs) can be used to limit access to data of different applications.

For later production of programmed cards we offer corresponding equipment or services.

More information can be found at [http:// www.basiccard.com](http://www.basiccard.com).
