MIFARE[®] Serial Number Reader with USB Interface

ZeitControl cardsystems GmbH introduces a new MIFARE RFID Reader with an USB interface.

It is not necessary to install a special driver. Windows automatically detects the RFID reader and installs an already present HID driver. The MIFARE serial number is available to any software as PC keyboard input.

Typical applications are: Access control, PC login, logistics etc.

Additional information is available at [http:// www.transponder.de](http://www.transponder.de).
